About the Program

White Stag Leadership Development training is over 55-years old and teaches youth a specific set of leadership competencies. Our Venturing Crew works year-round to plan and present three week-long camps each summer. During the training week, campers get repeated opportunities to learn and practice leadership skills in small and large group settings. They develop plans for applying these skills in their home organizations, programs, family, and community. Experienced adults and trained youth leaders closely and continually monitor all elements of the program. The program is open to boys and girls who have completed the 5th grade and are not yet 19 years old.

About Our Name

We take our name from the White Stag of Hungarian legend, the symbol of the 1933 World Jamboree held in Hungary. This Jamboree was the last attended by the founder of Scouting, Lord Baden-Powell. The White Stag was the symbol of challenge to reach for goals beyond one's perceived limitations and thus a challenge to grow as human beings, a fitting symbol for a leadership program.

The History of White Stag

White Stag was founded in 1958 by educational psychologist Dr. Bela Banathy. He conceived the idea of a program that defined and taught specific leadership competencies to youth. With the input of other social scientists and the assistance of a key group of fellow Scouters, Bela formulated and tested a method for managing the learning of leadership skills. The program was adapted in 1972 by the National Council of the Boy Scouts of America as the official nationwide Junior Leader Training Program.

About the Leadership Competencies

Your child will receive hands-on learning experiences designed to help them use proven leadership competencies pioneered by White Stag. Our program challenges youth to develop leadership skills and apply these skills in their home units, their schools, their church groups, and within their families. We are currently training our fourth generation of youth staff.

Each camper will acquire a greater depth and breadth of knowledge in the following leadership competencies:

- Getting and giving information
- Knowing and using your available resources
- Controlling your group's performance
- Understand group needs and characteristics
- Planning and decision making
- Managing the learning by using goals and objectives
- Setting the example
- Sharing leadership
- Counseling
- Representing your group
- Evaluating and process improvement

And more.

About Our Staff

White Stag is a volunteer organization. Our highly trained adult staff is made up of alumni, parents, and scout leaders who have found value in the White Stag experience. All parents are welcome to participate. Many parents help in equipment and food service support roles. For information on how you can help, contact Parent Coordinator Steve Cardinalli, tony@whitestagcamp.org or 1-800-559-3188.

How Our Program is Organized

Campers who range in age from 11-18-naturally bring a wide variety of skills and needs to the leadership development program. Accordingly, the program is organized into three phases so that it may better meet the needs of all the participants.

Each phase is designed for a particular range of skills and level of maturity. Participants generally will be attracted to a particular phase, but Area Representatives are available to help candidates select the phase that is likely to be most satisfactory for them. To ensure proper program placement, our staff reviews each registration form and when necessary, personal interviews with candidates and consultation with parents.

All three phases center on the development of leadership skills such as planning, knowing and using your resources, understanding and being sensitive to the needs and characteristics of your group, communication, and evaluation. The degree and emphasis with which the competencies are explored increase from phase to phase. Completion of Phase I is not required for acceptance into Phase II. Similarly, completion of Phase I or Phase II is not required for acceptance into Phase III.

The following are suggested guidelines for the placement of candidates. Final candidate placement will be the decision of the White Stag staff. **Applicants seeking age exceptions must attend Candidate-Day, however age exceptions are *not* guaranteed.**

Phase 1, Group Member Development

For youth ages 11-13 (or, 10 ½ and who have **completed the 5th grade**). Participants will experience the dynamics and power of a close-knit group. They are exposed to the responsibilities of group membership and to leadership skills. They go on one overnight backpacking trip.

Phase 2, Group Leadership Development

For youth ages 13 –14 (or, with approval of Phase Leader and Director, for youth who have previously completed Phase I); camping experience and skills; some overnight backpacking experience with two 5-mile hikes. Campers learn the skills of small group leaders. They are exposed to advanced levels of leadership competencies and are given guided opportunities to lead a small group. They will go on multiple overnight backpacking trips.

Phase 3, Large Group Leadership Development

For youth ages 15-18 (and, completed the 8th grade, or, with approval of Phase Leader and Director, for youth who have previously completed Phase II). Extensive camping and backpacking experience preferred. Campers learn the skills of a large group leader, leading small group leaders. They receive opportunities to practice leadership skills at the highest level in a high-adventure setting. Campers spend several days backpacking.
